HIGHSMITH #45115

THE COMMONWEALTH OF MASSACHUSETTS
EXECUTIVE DEPARTMENT
STATE HOUSE • BOSTON 02133
(617) 727-3600

ARGEO PAUL CELLUCCI
GOVERNOR

April 1998

Dear Friends:

I invite you to explore the Commonwealth of Massachusetts as a location for your next film production.

My Administration has worked hard to ensure that filming in the Commonwealth is a hassle-free experience, making the Bay State an attractive destination for production companies large and small. We have established a competitive fee-free policy that allows producers to use state-owned properties at no cost. Staff at the Massachusetts Film Office stand ready to assist you and your crew in meeting your unique production needs.

The beautiful and diverse Massachusetts landscape presents filmmakers with an array of scenic backdrops. From the dunes of Cape Cod to the rocky coastline of the North Shore, the Commonwealth provides a view of the Atlantic like no other state. To the west, quaint villages lie nestled in the valleys of the Berkshire Mountains, whose peaks offer grand vistas of pristine forests and lakes. The Commonwealth's capital city similarly embodies our nation's rich heritage. One can trace the footsteps of our founding fathers from the quiet cobblestone streets of Beacon Hill to the bustling shops of Quincy Market. Boston's unique architecture also reflects the city's embrace of old and new; colonial clock towers and stately brownstones stand proudly among glistening skyscrapers and other distinctive displays of modernity.

Indeed, the Commonwealth's characteristic blend of colonial charm and cosmopolitan flair, combined with our unwavering commitment to facilitate your shooting schedule, make Massachusetts an ideal site for your production. The citizens of Massachusetts look forward to welcoming you in the near future.

Sincerely,

Paul Cellucci

Argeo Paul Cellucci

ARGEO PAUL CELLUCCI
Governor

Dear Production Executive:

The Massachusetts Film Office (MFO) is here to assist your production needs from start to finish. For both large and small-budgeted projects, the MFO delivers services that meet your specific production requirements. We will be a co-producer on your project.

Massachusetts offers a deep and experienced crew base, whose expertise comes from hosting hundreds of features as well as two television shows. Our locations are spectacular and include coastal villages, scenic town centers, mills and factories, school campuses, rural farms in the Berkshires, and Boston's historic and contemporary cityscapes. Furthermore, the MFO has well established relationships with labor and business leaders who work to provide a competitive and cooperative environment for location production.

The MFO is eager to work with you. Whether it is augmenting research, finding poignant locations, negotiating with labor and business, or facilitating permitting, the MFO will ensure that your film experience in Massachusetts is a positive one. We pride ourselves on our reputation as one of the best film offices in the business.

Thank you for your consideration.

Best Regards,

Robin Dawson

GENERAL INFORMATION

The MASSACHUSETTS FILM OFFICE STAFF

Robin Dawson, Director
Tim Grafft, Deputy Director
John Alzapiedi, Production Coordinator
Ann Scanlon, Media & Marketing
Bonnie Flood, Program Manager

****** *MASSACHUSETTS FILM OFFICE SERVICES* *****

The Massachusetts Film Office (MFO) wants your business and is prepared to deliver first class service to the film and television industry in all areas of production. Our relationships with labor, support services, vendors, state and local officials are both positive and firmly established.

The MFO is responsible for all your production needs in Massachusetts, with the exception of permitting in the city of Boston. The MFO will assist you with contacts for local (excluding the city of Boston), state and federal government agencies, detailed on pages vii-xi.

The MFO offers film incentives, such as the Fee Free Locations Program, which provides free office and stage space to qualified filmmakers at no extra cost, with the exception of utilities (see page ii).

* **Breakdown of scripts along with location scouting and location packets.**
* **Research assistance for screenwriters, directors, and producers.**
* **Initiate competitive bidding with hotels for productions requiring accommodations.**
* **Act as liaison with local vendors and support services.**
* **Capitalize on state, local and municipal relationships for specific location requests.**
* **Secure contact with state-owned facilities and sites for location filming.**
* **Initiate the permitting process for location requirements outside of Boston.**
* **Cooperate with police and fire for production needs.**
* **Support production needs prior to and throughout each production.**
* **Supply a free state production guide, covering all of Massachusetts.**

For more information, please call the Massachusetts State Film Office at:
(617) 973-8800 or FAX: (617) 973-8810

***** *MASSACHUSETTS FEE-FREE LOCATIONS* ***** *PROGRAM*

Massachusetts' Fee-Free Locations Program provides filmmakers with a tremendous incentive to film in the Bay State. **State-owned facilities are available to qualified filmmakers at no-charge** and may be used for office and set space. This program substantially lowers your below-the-line cost.

During the filming of *The Crucible,* Twentieth Century Fox utilized Danvers State Hospital for office space, props and carpentry shops, and warehousing. Other productions have used state facilities as locations and soundstages.

The Commonwealth's long history provides filmmakers with four centuries of diverse architecture that can only be found in Massachusetts. Throughout the Commonwealth, Victorian, Gothic, and Colonial Revival structures may be found and utilized for filming. Locations include armories, warehouses, churches, cottages, farms, islands, forts, and vintage and modern office buildings. Many of these areas offer outstanding landscapes and panoramic views, and may be renovated to meet your script's needs. Under the state's Fee-Free Locations Program, locations throughout Massachusetts are available at no-charge; you pay only costs incurred during production.

Please contact us to see if your production qualifies for this program.

********** *MASSACHUSETTS LABOR* **********

The Commonwealth has hosted a variety of productions including television series, feature films and commercials, making our crew and staff base experienced. Local hires have accounted for up to 70% of staff and crew positions on most feature productions, including Miramax's *Good Will Hunting* and Disney's *A Civil Action*.. Local hires dramatically reduce a producer's below-the-line cost by eliminating travel, per diem and hotel expenses. In addition, staff and crew capability is deep enough to accommodate the shooting of more than one production at a time.

Massachusetts-based IA locals have jurisdiction throughout New England, allowing crews to shoot anywhere in the six-state region. The IA locals represent scenic artists and painters, studio mechanics, cinematographers, script supervisors, and hair and make-up. Local 25 Teamsters of Massachusetts have jurisdiction granted by Joint Council 10 to provide captains and drivers in MA, ME, VT & NH.

The Boston office of Screen Actors Guild represents the majority of actors in New England. In addition to commercials and industrials, feature film and television series have employed SAG actors extensively. Producers are pleased to use experienced SAG members for speaking roles as day or weekly players, stunt specialists, and extras.

********** *A FEW WORDS TO PRODUCERS* **********
About
MASSACHUSETTS UNIONS

Massachusetts boasts several hard-working and capable unionized work forces. Gaining a complete understanding of your rights and responsibilties in relation to Massachusetts unions will enhance your relationship with these important organizations. As you may know, your involvement with each union will take place on an individual basis. The following is a brief overview:

Under the following circumstances, a production company may be obligated to discuss its plans with a representative of a particular union:

* The production or parent company has a contract in force with that union;

* The production company employs or wishes to employ members of that union.

If, with respect to the union in question, neither of the conditions noted above apply to your production company, then your interaction with that union is voluntary.

If you have any questions or concerns regarding unions or other employment-related issues, please contact an Information Officer at our local office of The National Labor Relations Board at (617) 565-6710. The Board is eager to help, and if you request, your call will be kept confidential.

Boston has successfully hosted many feature films, television movies, television series and commercials. Careful planning and communication are key to problem-free shooting in the city.

The Boston Film Bureau can assist you with permitting needs, or facilitate requests with any city agency. Kevin Chapman, the Director of the **Boston Film Bureau**, should be contacted well in advance of filming if possible. He can be reached at (617) 635-3245. His fax number is (617) 635-3031.

The permitting procedure for the City of Boston is as follows:

1. Provide a **Certificate of Insurance** (COI) with a minimum of $1,000,000.00 issued to: **The City of Boston, Boston City Hall, Room 716, Boston, MA** 02201,as the certificate holder. This COI provides security in the unlikely event of personal injury on city property as a result of your activities. You must request a COI from your own insurance company, and have it dated for the period of time you are working in the City of Boston.

2. Provide a **Bond** with a minimum security of $5,000.00 issued to the **City of Boston**. This bond provides security to the city in the event of damage to city property. You must acquire a bond from a local bonding company. There is usually a $50.00 fee and the bond is valid for one year. If you need assistance selecting a bond company, please contact the **Boston Film Bureau**.

3. If reserved parking for staging vehicles, pedestrian or vehicular traffic control, or special circumstances are involved, then present copies of the COI and the **Bond** to the **Boston Transportation Department** (BTD) located in Room 721 at City Hall. If needed, complete a parking permit application and have it approved. **A detailed map** of

your intended locations for filming and staging vehicles will greatly simplify the permitting process. If **Posting of Notices** is required, for restricted parking or special circumstanes, some postings must be done 48 hours (two days) in advance of activities and require 48 hours to process interdepartmentally. **Therefore, 96 hours or four days is the usual lead time.** Parking will only be approved for vehicles with **commercial plates.** Requests for bagging of parking meters are also made here. **Meter numbers and exact locations must be provided.** The meter charge is $10.00 per meter per day.

4. Present the COI, the Bond, and the BTD Permit, (if required) to the Boston Film Bureau, Room 716, City Hall for review of permits, fees, and licenses that may be required by the City of Boston. These may involve the Department of Public Works (DPW), Police or Fire Departments, Parks and Recreation Department (PRD) Neighborhood Associations or Special Interests. The Boston Film Bureau will assist you in making the necessary arrangements with these departments. Fees for special services, i.e. Police Details, Ranger Details, and Fire Marshall Details, will be billed directly to the client by these offices. Contributions to the Funds for the Parks and Recreation will be collected by the Film Bureau. Neighborhood Associations or Special Interest will make decisions that are situationally appropriate.

5. The last stop, **DPW** issues permits for shooting on the streets, sidewalks and public ways. The fee for the permit is $20.00 per day per location.

For other production requests, including locations or other film services, you can continue to call our office.

********** *BOSTON POLICE ASSISTANCE* **********

The Boston Police Department has worked closely with many productions to ensure the safety and convenience of the public, and understand the pressures of filmmaking. Routine police details may be obtained through the Boston Police Department Detail Office at the following hourly rates:

	INDOOR	OUTDOOR
Captain	$34.00	$35.00
Lieutenant	$31.00	$32.00
Sergeant	$29.00	$30.00
Detective	$25.00	$26.00
Patrolman	$25.00	$26.00

Minimum detail is four hours, and an additional 10% surcharge is paid to the City of Boston for administrative costs. Larger productions may request the services of a Boston Police Coordinator. He/She is assigned when needed at no charge for an eight-hour shift. This coordinator works closely with the 1st AD and location manager in organizing police assistance. The Film Office often makes this request for a police coordinator on behalf of producers. The Boston Police Department also provides motorcycles and cruisers for street control as well as for use in pictures. A formal request must be made to the Boston Police Department for any vehicle use.

********** *BOSTON FIRE ASSISTANCE* **********

Filming in the City of Boston does not require a fire safety officer on the set. However, one is generally required when an open flame, explosive, or any safety hazard is present. Conditions that may require an officer include: stunt crashes, explosions, bullet squibs, use of fire department apparatus, hydrant use, heavy interior smoke, and interior sprinkler and fire alarm shut-down respectively. Fire safety officers work on productions on an off-duty detail basis. Rates for such detail range from $23 per hour for a fire fighter to $37 per hour for the chief. Minimum detail is four hours. Hiring of a fire safety officer does not eliminate the need for a state permit for use of explosives. Producers with the above needs are urged to make early contact with the Film Office to determine fire safety officer involvement.

********** *STATE GOVERNMENT* **********

Governor Cellucci, along with the entire administration, supports the Film Office in facilitating film and television industry needs. As a state agency, we are at your service with full cooperation from the Commonwealth.

The Commonwealth of Massachusetts has many locations to offer. Some locations include the State House, courtrooms, state office buildings, plazas, roadways, highways, tunnels, bridges, beaches, parks, ponds, lakes, woodlands, rivers, old mills, canals, estates, historic sites, a World War II battleship, as well as a variety of additional state buildings.

Most often requested state locations with their administrative agencies are as follows:

The Massachusetts Port Authority (MASSPORT) operates Logan International Airport; cargo, passenger and fish piers; a shipyard; a major bridge and many diverse tracts of land.

The Metropolitan District Commission (MDC) is a regional land and water resource authority. The MDC controls recreational parks, some Boston Harbor islands, key waterways, reservoirs and some roadways in the Boston metropolitan area.

The Massachusetts Bay Transit Authority (MBTA) affords inexpensive and flexible use of subway trains, trolleys, buses, commuter boats, and trains. Access to underground and ground level tracks and stations, commuter boat piers and docks, commuter rail stations, as well as Amtrak's South Station are also under MBTA jurisdiction.

The State Police and the Office of Metropolitan Services are two categories of police service. They are familiar with planning and execution of film and television production. Police details are hired on an off-duty basis whenever filming takes place on state or metropolitan controlled roadways. Vehicles can be provided at no additional charge when driven by a detail officer.

In addition, departments of Mass Highways, Mental Health, the Trial Courts, Turnpike Authority, State Buildings, Forests and Parks can provide locations upon request.

********** *LOCAL GOVERNMENT* **********

Most location work involves local government. The Film Office can initiate contact for location requests and to apprise town officials of production needs. The Film Office has extended experience in serving as liaison between producers and local governments.

Cities are generally governed by a Mayor and City Council. Towns are governed by a Board of Selectman and a Town Manager. Municipalities run by a mayor's office or city council have a clerk's office which you can contact for permit advice or location permission. The Film Office can also facilitate these contacts for specific productions.

Boards of Selectman vote their approval for location usage for public buildings and for the hiring of town personnel. A Board's executive secretary or its town manager can be most helpful in working through production needs prior to official requests. Often, the Film Office will appear before the Board in presenting specific cases advocating film production.

Small productions may prefer to approach local governments directly. First contact should be made with the town manager or mayor. He/She will give direction on the right people and departments to secure routine permission for filming on town streets or public places.

********** *FEDERAL GOVERNMENT* **********

Many Massachusetts-based agencies provide access to locations and services operating under the federal government.

The National Park Services provides access to historic landmarks and sites throughout Massachusetts. These include a 17th-Century ironworks and home, 18th-Century Revolutionary War battlefields and homes, the 19th-Century Charlestown Navy Yard and square-rigged warship U.S.S. Constitution, 19th-Century homes and the early 20th Century boyhood home of John F. Kennedy, and historic parks around the Commonwealth. The Park Service administers the Parker River Wildlife Refuge and the Cape Cod National Seashore, both vast areas of coastal dunes and beaches.

The National Weather Service forecast office, located at Logan International Airport, provides a 24-hour resource for the latest weather information. Film Office access can provide current and imminent weather conditions as well as long-range forecasts.

The Immigration and Naturalization Service has offices in Boston. However, all applications for visas allowing alien personnel work in Massachusetts are processed in the regional adjudication center in Vermont. It is recommended that several weeks lead-time be considered in applying for these visas.

***** *SPECIAL EFFECTS & EXPLOSIVES PERMITS* *****

Special effects coordinators who plan to use explosives or fireworks for special effects sequences, including devices such as squibs, black powder charges, and air mortars, must satisfy several requirements in order to carry out a legal explosion.

All manner of special effects explosions must be executed by a Massachusetts certified special effects technician. Special effects technicians without Massachusetts certification must apply for such at the Massachusetts State Fire Marshall's office. This application takes about ten (10) days to process provided the applicant knows state fireworks regulations and also holds a license from another state. Massachusetts fireworks regulations are available at the Film Office.

In order to carry out a legal explosion, the production must provide a certificate of insurance to a local bonding company to obtain a $15,000.00 bond. The bond is then signed by the State Fire Marshall and presented to the State Treasurer's Office for certification. It is the Treasurer's office which provides certification of the bond required by the local Fire Department Chief. A municipal permit is required from the local Fire Department Chief in addition to the state certified bond.

The State Fire Marshall's Office may be contacted directly for more detailed requirements and procedures.

State Fire Marshall
Massachusetts Department of Public Safety
1010 Commonwealth Avenue
Boston, MA 02115

Fax (617)-343-3757

********** *WEAPONS PERMITS* **********

Massachusetts has one of the toughest gun laws in the country. Property masters or film company armorers, who are non-residents and wish to possess firearms in the Commonwealth while filming, must obtain a temporary license from the Massachusetts Firearms Records Bureau. A non-resident gun permit is valid for one year at the cost of $10.00.

The permitting procedure requires the applicant to submit a copy of a current license to carry firearms issued by the applicant's home state. If no such license is required in the home state, documentation attesting to the applicant's good character including a criminal-free record must be secured from the Town Chief of Police and State Bureau of Criminal Records. This documentation is verified by the Massachusetts Firearms Record Bureau. All applicants requesting a license for employment purposes must produce a letter from their employer on his/her letterhead stating the need for issuance of a license to carry firearms. Two recent photos (1 1/4" X 1 1/4") endorsed by the employer must accompany the application.

Allow seven (7) to eight (8) weeks for the entire permitting process. This time frame is especially important for applicants needing verification from hometown and state authorities. Non-residents may not obtain, receive, purchase or transfer weapons while in Massachusetts.

Once a weapon is in Massachusetts, it may only be transported in a locked box by a licensed person. If the weapon is aboard a safe within the prop truck, the driver of that truck must be licensed. Transportation captains in Massachusetts routinely assign licensed drivers to drive a prop truck when weapons are involved. Actors do not need to obtain a license to handle prop weapons on the set if a duly licensed person is also on the set to immediately supervise weapon use. Strict attention must be paid to supervision. Please be advised that a firearm that is temporarily inoperable is considered a weapon in Massachusetts and must be treated as such.

Contact: **Massachusetts Dept. of Public Safety, Firearms Records Bur.**
200 Arlington St.,Ste. 2200, Chelsea, MA 02150
617-660-4780, Fax 617-660-4613

********** *CHILD LABOR LAW* **********

The employment of minors in Massachusetts is governed by state law. The fair Labor and Business Practices Division oversees minors working in the Commonwealth. They require that a letter be sent from the production company to the Division requesting permission to employ child performers. Your letter should contain the following information:

1. Name and age of each child performer under eighteen.
2. Name and address of the child's parent or guardian.
3. Child's Social Security number.
4. Length of employment.
5. Type of production such as feature, commercial, industrial, etc.
6. Production start-up and finish dates.
7. Employment dates and times.
8. Production locations of employment.
9. Verifying statement that the child's working and living conditions during the production will be of a healthful and sanitary nature.
10. Confirmation statement of adequate supervision to be provided without neglect of the child's education.
11. Appropriate medical assistance will be immediately available in case of accident or sickness.
12. The Production Company, main address, and contact person is required on the request.

A check in the amount of $100.00 should be made out to the Commonwealth of Massachusetts and sent along with the letter of request. This is a one-time fee that covers the child performer or performers for any number of work days on a given production. Send the above letter and an accompanying check to the following:

Joan Parker
Office of the Attorney General
Fair Labor & Business Practices Division
200 Portland St, 2nd Floor
Boston, MA 02114
Phone: (617) 727-2200 ext. 3248, Fax (617) 722-3066

Upon review and approval of the above request, the Director of the Fair Labor and Business Practices Division will issue a letter of authorization to the company. The letter permits the participation of minors provided that the minors work for certain periods, under adequate supervision with healthful living and working conditions.

***** *CHILDREN PERFORMERS: CONTRACT AND COURT APPROVAL* *****

Under Massachusetts Law, **certain** children under eighteen, who are contracting with entertainment entities, are subject to probate court approval prior to **filming** in the state.

Children paid as extras, day players, three-day players, weekly players, stunt day players, on-camera narrators and/or spokespersons, each having no more than 120 days of collective employment, are exempt. All other Massachusetts child labor laws remain in effect.

For those performers who do not fit the categories above, the following procedures should be followed to comply with the law.

- Petition forms must be requested, completed and returned for court filing as quickly as possible. Our experiences in the past have been that the courts have made every effort to be expedient.

- A check made out to the court in the amount of $60.00 should accompany the filing.

- In Massachusetts, the petitioner (the person who files the petition) is the parent, parents or guardian of the child.

- A certified copy of the birth certificate must be filed with the petition.

- The child's executed contract (signed) must be filed with the petition.

- Petitions must be filed either in the county court in which the minor lives if s/he is a resident, or in a county where s/he works, or where the company has its principal business if s/he is a non-resident of Massachusetts. If you need assistance, call the Mass Film Office.

- The court may appoint a guardian ad litem (GAL) to review the petition for legal compliance and contract for fairness.

- You may wish to advise the court of your schedule in advance in order in order to accommodate all parties. This may be true for imported productions where time constraints can be sensitive.

- The court will set a date for hearing and allowance of the petition.

- On the court-appointed day, the child, the petitioner (parent/guardian), (if appointed) should be present in court. The following issues may be considered by the judge on that day: the child's wishes; proper tutoring, if needed; the amount of money set aside in a trust account to be received by the child when s/he reaches age 18; the trust account itself and the trustee; who, (if anyone) will be administering the account; and who is entitled to the child's earnings.

- The GAL's fee is the company's responsibility.

- Once the contract is approved by the Probate Judge, the child cannot disaffirm the contract.

- The court has the power to appoint a guardian to oversee the property. If this is done, the guardian appointed will be required to file a bond at the time of the hearing and file accountings in accordance to Massachusetts Law.

***** *MASSACHUSETTS WEATHER, CLIMATE AND* ***** *SEASONS*

Spring begins in late March, when temperatures are in the 40s. By mid-April, buds, green leaves, and early flowers start to appear. By May 10th, temperatures are in the 50s and 60s, everything is green. By mid-May, full spring bloom is all around.

Summer begins in June, with 60 and 70 degree temperatures and fair weather. July and August (in the 80s) offer clear and bright days, interspersed with hot and hazy ones. In summer, sea breezes keep coastal areas cooler than interior areas. During September, summer lingers but temperatures dip back to the 60s and 70s with a hint of fall coolness in the air.

Fall starts September 21. Autumn foliage is at its peak in mid-October, when temperatures return to the mid-50s and 60s. Typically, a series of warm days and cool nights ensure fall's vibrant colors. By the first or second week of November, the leaves are off the trees and temperatures are in the 40s and 50s.

Winter begins in December. (Although some years, a dusting of snow has fallen on Thanksgiving Day.) By mid to late January, ponds begin to freeze over and there are occasional snowfalls. Christmas is white some years, but not all. Snow and ice start to accumulate in January, while February brings the coldest temperatures (20s and 30s) and the most snow. In winter, Boston and Cape Cod can receive rain, while Worcester and Stockbridge receive snow.
